

General Dentistry Office Search Student Practicum
Dental Assistant Professional Program – October 2020 Intake

Students will begin the practicum portion of the program beginning in Semester 5 for 4 straight weeks (May 17, 2021 – June 12, 2021).

Please note that this form represents only an initial agreement that you will allow the student to complete the practicum component of the program in your dental office. The student will bring an official contract for you to complete at a later date.

***Please see reverse side for more details on the practicum portion of the program.**

In preparation for the practicum portion of our program, please note the following:

Students are to complete the practicum portion in a General Dentistry Practice.

Specialty Practices cannot be considered for practicums (i.e. Pediatric or orthodontic offices).

- Students must be mentored and supervised by a Registered Dental Assistant (when working in the clinical setting) who is physically on-site and able to assist the student if needed. Students are permitted to perform all duties evaluated throughout the Program, including all intra-oral skills:
 - dental radiographs (RAD)
 - impressions (IMP)
 - dental dam (DD)
 - selective coronal polishing and anticariogenic agents (PF)
 - pit and fissure sealants (PIT)
 - desensitizing agents (DES)
 - matrices and wedges (MW)
 - topical anesthetic (TA)
 - suture removal (SUT)
 - bases and liners (BL)
 - provisional coverage and restorations (PCR)
- Practicum hours total 140 hours (35 hours per week for 4 weeks).
- Students will be required to complete weekly log books of their activities; their supervisor/trainer will be asked to complete a brief weekly summary as well as a final semester evaluation.
