See reverse for important information related to; staff, student and visitor/patient safety during the COVID-19 Pandemic.

Changed Office Protocols please follow all directions provided by faculty and students while at the college:

1. We will ask for:
 - a) Proof of Vaccination (verified with a piece of photo ID):
 - Columbia College now requires all staff, students and visitors to provide proof of vaccination.
2. We will ask pre-appointment screening questions to:
 - a) Determine your risk level for being infected with COVID-19:
 - Any individual experiencing symptoms of COVID-19 that are not related to pre-existing illness or health conditions is required by law to follow Alberta's isolation requirements,
 - Anyone who is sick with cold-like symptoms such as cough, fever, runny nose, sore throat or shortness of breath, **MUST NOT** be in the college.
 - b) Determine if you fall into one of the vulnerable population groups with respect to COVID-19:
 - We will offer to change your appointment to a time when fewer patients have passed through the clinic
3. We must minimize the number of people arriving at the college:
 - a) Only children and infirm patients can be accompanied into the dental clinic,
 - b) Do **not** bring any family or friends without an appointment to the college that day.
4. When you arrive at the college:
 - a) Please **wear a mask**:
 - If you do not have a mask, one will be provided.
5. Our students and faculty will be wearing additional protective equipment according to the new standards set by our associations.
6. Since patients will be in direct contact with students and faculty while at the college and cannot maintain adequate physical distancing, they will also be required to wear protective eyewear and a mask at all times unless asked to remove it for a procedure.
